

LOTE – DR ALLA BERG

Once Nelson Mandela said:

“If you talk to a man in a language he understands, that goes to his head. If you talk to him in his own language, that goes to his heart”

In Burrowes we teach German as a foreign language.

German is one of the most widely spoken languages. More than 100 million people speak German.

The research proves that learning a foreign language improves a children’s memory, develops their creativity and concentration. It also improves their reading, writing and speaking skills while learning their native language (or learning English).

We use different teaching strategies to suit intellectual ability of our students. Some strategies include using art, music and ICT for engaging and encouraging our students in learning a foreign language.

By composing interesting and intellectually stimulating tasks we encourage students to learn and enjoy learning while expressing their creativity.
